Summary

Full-stack engineer with **3+ years** building web and mobile apps for early-stage startups. Ship end-to-end features in **Go, React Native, Next.js, and Node.js**. Track record of **10x frontend speedups** and **4x backend throughput gains**. Comfortable owning features from design through production, across frontend, backend, and real-time systems.

Skills

Languages	Go, Python, JavaScript, TypeScript, Dart
Frontend & Mobile	React, Next.js, React Native, Flutter, Redux, Zustand, Jotai, Tailwind CSS
Backend & Systems	Node.js (Express, Fastify), Go (Gin), Python (FastAPI), Kafka, RabbitMQ, Socket.IO, Temporal, Microservices, Async Processing
Data & Tools	PostgreSQL, MongoDB, Redis, MySQL, Firebase, Docker, Git, CI/CD, Linux, Postman, Agora

Experience

SDE-II | Pixelforge Technology Pvt Ltd Dec 2025 – Present
Bangalore, India *Go, React Native, PostgreSQL, Redis*

- Own **2 production apps** (Astrokiran User & Guide) serving **90K+ downloads**, **800 new users/day**, and **1000 daily consultations**, ensuring reliable performance and smooth user experience.
- Designed and rebuilt the **chat consultation system** with reliable message delivery, delivery states, cursor pagination, and media support (image/voice), improving system robustness and consistency.
- Implemented an **event-driven architecture** connecting chat, billing, and notification services using async messaging to ensure data consistency and loose coupling across systems.
- Built **event-based analytics dashboards** tracking conversion funnel, repeat rates, and active usage to support data-driven product decisions.
- Developed internal admin tools and a **rule-engine based assistant** to reduce manual operational overhead and improve workflow efficiency.

SDE-II | Quid Social Pvt Ltd Jun 2024 – Nov 2025
Bangalore, India *Next.js, Node.js, Flutter, PostgreSQL*

- Owned and delivered the **QuidPe platform** end-to-end from POC to production, designing a modular and maintainable system serving **500–800 DAU**.
- Designed and implemented a **scalable authentication system** using JWT (access/refresh tokens) with RBAC across 5 roles, replacing Firebase and enabling secure third-party integrations.
- Improved frontend performance using **Next.js SSR**, code-splitting, and optimized hydration, reducing page load time from **15s to 1.5s**.
- Integrated external **KYC and GST services** with resilient handling of third-party failures and partial outages.
- Built **data exchange pipelines** for partner integrations with schema mapping and reliable data processing across systems.

Frontend Lead (Contract) | Seshra Innovations Oct 2023 – May 2024
Kathmandu, Nepal *React, Node.js, MongoDB*

- Led end-to-end delivery of a **banking LMS platform** with multi-user admin panels, ensuring timely and stable product delivery.
- Implemented **role-based access control** for secure and structured user management across admin, trainer, and trainee roles.
- Collaborated closely with stakeholders to define scope and deliver maintainable features aligned with business needs.

Associate SDE | Seasia Infotech Pvt Ltd Jan 2023 – Sep 2023
Mohali, India *MERN, Node.js, MongoDB*

- Developed full-stack **MERN applications** with clean API design and reusable components across multiple client projects.
- Built a **product recommendation system** that improved user engagement by **40%** and DAU by **25%**.
- Resolved production issues such as **N+1 queries** and memory leaks, improving system reliability and response times.

Projects

Jibika Pharmacy — Website & Custom CMS [Live](#)

- Built a live pharmacy and clinic platform with a **custom CMS** to manage doctors, services, and content end-to-end. Built with **Next.js** and **MongoDB**.
- Shipped an **appointment booking system** tied to doctor availability, **6-month medical history logs**, and **SMS/WhatsApp notifications** to keep patients updated on bookings and visits.

SparkScribe — Drag-and-Drop Form Builder [Live](#) | [GitHub](#)

- Dynamic form builder with drag-and-drop (DnD Kit), live preview, and schema-driven rendering — **cut form creation time by 60%**. Built with **Next.js, TypeScript, PostgreSQL, Prisma**.

Education

B.Tech, Computer Science — I.K Gujral Punjab Technical University 2019 – 2023 | CGPA: 8.2/10
